WHAT IS CHILANGO?

It depends on who you ask.....Literally, it means "Native of Mexico City". Culturally; Chilango has become a noun to describe a generation of blends and fusions of food, drink & styles from all parts of Mexico and beyond.

To us, Chilango is where wholesome tradition meets modern dining trends & creativity. Our aim is to convey from our kitchen & bar the essence of Mexican seasoning and spices in a playful and approachable manner.

¡Buen Provecho! ... We hope you enjoy!
